

Rod antenna with tilt joint

The professionelle indoor antenna for your
GSM remote and telemetry devices

Order no.: 300303312S (SMA)

Applications

The GSM rod antenna is a suitable solution
for indoor use.
A mounting jack ensures stability.

Technical data

Frequency	790 - 870 Mhz, 1710 - 1880, 2500 - 2690 Mhz	Polarisation	Linear, vertical
VSWR	≤ 3,0 type 1 max.	Scope of delivery	GSM rod antenna with tilt joint (SMA)
Plug	With SMA plug		
Temperaturbereich	-10° C up to +55° C working temperature		
Resistance	50 ohm		
Enlargement	0 - 1 dBi, -0,5 - 0,5 dBi, 0,5 -2,5 dBi		
Average enlargement	>4,5 dBi, > 2,8 dBi, >2,1 dBi		
Length with tilt joint	137,70 mm
